Hardwood Floor

Do –

- Do wipe up any spills immediately with a soft, dry cloth, starting at the edges of the spill and working your way toward the center.
- Do sweep your floors regularly.
- Do vacuum frequently, using a canister vacuum with a special hardwood floor attachment.
- Do move area carpet or rugs occasionally to maintain a uniform appearance in the floor's finish.
- Do place glides made of felt or some other fabric under the legs of furniture to prevent scratches.
- Do use non-marking rubber casters instead of plastic or metal.
- Do lift furniture when moving it to avoid scratches in the floor's surface.
- Do make sure there are no exposed nails or metal heel supports on shoes that could scratch or dent the floor. BE AWARE THAT HIGH HEELS CAN DENT A HARDWOOD FLOOR.

- Do not let water stand on your floor, or use wet cloths for clean up.
- Do not mop floors, not even with a slightly damp mop.
- Do not use an upright vacuum with beater bars (this can cause dents in the floor).

- Do not use throw rugs with rubber or vinyl backing without checking to see if they will affect the floor's finish.

Granite Countertops

Do's –

- Do blot up spills immediately. (Acidic substances like wine, coffee, fruit juices, tomato sauce and sodas can etch the polish or stain the surface)
- Do clean surfaces using a sponge or soft cloth. (Preferably use a specially formulated stone cleaner, but warm water and a basic liquid dish soap will do for quick clean-ups)
- Do use coasters under all glasses, bottles and cans.
- Do use trivets and hot pads under pots, pans and dinnerware.
- Do use cutting boards.

Don'ts –

- Do not use generic cleaning products such as bleach, glass cleaners or degreasers.

- Do use a product such as Stainless Steel Magic Spray to polish and help prevent fingerprints.
- Do use a non-abrasive cleaner such as a baking soda paste with a clean, soft cloth or damp sponge for moderate to heavy soil.

Don'ts –

- Do not use any abrasive products.
- Do not use chlorine bleach or any product that contain chlorine bleach.
- Do not use scouring pad.

Whirlpool Tub

Do's -

- Do wipe down entire surface and basin of the tub after every use to prevent mildew from building up in the corners and edges of the jet openings.

- Do make sure to use a soft cloth or squeegee to avoid scratching the surface of the tub.
- Do use a mild non-abrasive cleaner and avoid detergents, disinfectants or cleaning products that come in an aerosol can for maintenance cleaning.
- Do clean the surface as well as the jets and plumbing system twice a month. To clean the jet plumbing components, fill tub with water just above the highest jet with hot water and add a small amount of cleaning product and let run for at least seven minutes. Drain the tub completely and refill the tub with cold water. Run the whirlpool for an additional five minutes to rinse the system.

- Pest control will be provided inside your home by written request. It is necessary for all residents to comply with preparation requirements associated with the pest control treatment. In some cases, it may be necessary for an entire building to receive treatment. If this becomes necessary, we will notify you in writing in advance. Failure to comply with the rules for preparation will result in a fine of \$25.00 for the first offense and \$50.00 for each offense thereafter.

EMERGENCY MAINTENANCE PROCEDURE

We provide 24 hour emergency maintenance service seven (7) days a week for the following emergencies only:

- No heat in the winter (Outside temperature below 50°)

- Plumbing leak or sewer stoppage which might damage personal belongings or apartment property.
- Commode stoppage (if only one bathroom)
- No electricity.
- No water.
- No hot water.
- Broken or non-working exterior door, locks or windows.
- Any condition which might cause a fire.
- A gas odor.
- Any condition posing an immediate threat to health or safety.

Please note: A/C repairs can only be performed during daylight. Please submit requests as early as possible to avoid delays.

ENERGY CONSERVATION

Respect for our environment and energy conservation is one of our top priorities. Your home may include one or more of the following; additional weather stripping, 70% solar screens, reflective Tech Shield sheathing in the attic, dual pane low-E windows, Celbar Insulation, programmable thermostats and energy saving appliances. Contact the management office for specific details within your community. Below are additional suggestions to help conserve energy.

WATER

- When operating the garbage disposal use cold water. This reduces hot water usage, saves on kilowatts and eliminates maintenance issues.
- Notify the office immediately when you notice a leaky faucet or running commode. A leaky faucet dripping one drop per second can use as much as 650 gallons of water in one year.
- Use the shower rather than the tub. An average shower uses only 5 gallons of water while a bath tub uses almost 10 gallons.

HEATING & AIR CONDITIONING

- Decide on a desired temperature and leave the thermostat rather than adjusting.
- Be sure obstacles do not block the return air grill. (This is normally located in the wall adjacent to the furnace closet)
- Adjusting blinds can act as insulation. For example, in the winter, keep blinds open to allow sunlight to heat up the apartment. In the summer, keep blinds closed to reduce incoming heat.

KITCHEN & LAUNDRY

- Do not set your refrigerator or freezer to run colder than necessary.
- Less heat escapes with covered pots and pans, this allows you to use a lower setting.
- Unplug small appliances (toaster, blender, coffee maker, etc.) when not in use.
- Wash most loads in cold water.
- Both the washer and dryer operate more efficiently if used on a full load.

MISCELLANEOUS

- When no one is watching TV or listening to the radio, turn them off.
- Turn off lights when not needed.
- Use fluorescent light bulbs to conserve energy. (Remember, these may not be disposed of on the property).
- Unplug computers, phone chargers, iPod chargers, etc. when not in use.

SECURITY AND SAFETY

CRIME DISCLOSURE

Owner may have provided alarm systems, courtesy patrols, pedestrian gates, controlled access, vehicle gates etc. **Such systems are not a guarantee of your personal safety and are not a guarantee against criminal activity.** Owner assumes no duties of security except to proceed with reasonable diligence to repair such systems after written notification from the resident. Courtesy patrols and owner's representatives cannot physically be at every place at every moment of the day. Also, courtesy patrol personnel are independent contractors: they are not employees of the owner or Management Company. Under all circumstances, residents should assume that electronic and mechanical systems may malfunction and that the person(s) responsible for them are not infallible.

Remember to please call the police first if trouble occurs or if potential crime is suspected. Please read and follow all recommendations in the Texas Apartment Association Lease Contract "Security Guidelines for Residents" which has been furnished to you.

TEMPORARY ABSENCE

Any temporary absence from the premises will not establish a new "home" or "work" address for purposes of the Texas Rules of Civil Procedure, without the express written consent of the landlord. Further, any notification directed to the landlord relative to a temporary absence from the premises should only be effective if such notices are in writing, sent by certified mail, return receipt requested or by courier, received by the landlord or its agent at a time when the tenant is not otherwise in default of its lease obligations.

SMOKE DETECTOR RULES & REGULATIONS

Repair: You agree that it is your duty to regularly test the smoke detector(s) and agree to notify owner IMMEDIATELY in writing of any problem, defect,

malfunction or failure of the smoke detector(s). You agree to let us know when the batteries need to be replaced, if at any time the existing battery becomes unserviceable.

Replacement: You agree to reimburse owner upon request for the cost of a new smoke detector(s) and the installation thereof in the event the existing smoke detector(s) become damaged by you, your occupants or guests.

OUTDOOR COOKING

No outdoor grilling or storing of grills is permitted on the patios, balconies, walkways or breezeways at any given time. Any grilling must be done at least ten (10) feet from the building(s). Grilling on the parking lots is not permitted.

FIREPLACE *(If Applicable)*

The following are restrictions and precautions for the use of the fireplace in your apartment home.

- The fireplace is built for solid fuel only. Use of chimney cleaners or flame colorants in the fireplace is strictly prohibited.
- It is prohibited to use gasoline, gasoline type lantern fuel, kerosene, and charcoal lighter fluid, or similar liquids in the fireplace.
- The following materials must never be used in the fireplace: quantities of scrap lumber, pine branches, processed fire logs and/or fire starters, or cardboard boxes.
- Keep flammable liquids a safe distance from the fireplace.
- The flue damper must be open at all times when the fireplace is in use. Operating the fireplace with the flue damper in the closed position may cause carbon monoxide poisoning and hot combustion gases. Failure to operate the fireplace with the damper in the open position may result in asphyxiation or a fire. If the damper is left partially open, gas and flames may be drawn out of the fireplace opening, creating the risk of both fire and smoke.
- Never leave children unattended when there is a fire burning in the fireplace.
- This fireplace was not tested and listed for use with an un-vented gas log heater. Use of an un-vented gas log heater in this fireplace may create a fire hazard.

AUTOMOBILES & PARKING REQUIREMENTS

- Parking within the community is for authorized vehicles only.
- Garages may not be used for the sole purpose of storage.
- Unauthorized parking in garage driveway or reserved parking space without proper ID sticker is prohibited. Violators will be towed without notice at the vehicle owner's expense.
- All motor vehicles are to be properly aligned in parking areas. Boat, Jet Ski, motorcycle and trailer parking is not available on the property.
- On communities where assigned parking and/or parking stickers are applicable you may only park in your designated space/area. Guest(s) must park in designated guest parking areas only. Violators will be towed without notice at the vehicle owner's expense.

A \$100 replacement fee will be charged for parking permits that are lost/stolen, or not returned at move out.

- Residents are responsible for educating their occupants and guests about parking policies.
- Vehicle registration and inspection must be current.
- All vehicles must be operable at all times.
- No parking in the fire lanes at any time. No parking in handicap spaces without a proper permit. Violations are subject to be towed without notice at the owner's expense.
- Car repairs and car washing are strictly prohibited on the property.

Facility Owner's Authority to Remove Unauthorized Vehicles

The owner reserves the right to limit the number of vehicles permitted per apartment. The maximum number of vehicles per unit type is determined by the size of the garage as shown in the property brochure, and/or assigned parking spaces. If no garages or assigned parking are available, the maximum number of vehicles will be two (2) per home. A vehicle means a car, truck\SUV, van or motorcycle or similar item, and does not include recreational vehicles. All vehicles on property must be registered with the management office.

All residents are required to park all vehicles, up to the design limitation of the garage, inside the garage at all times. Parking in front of the garage in the tandem spaces (if the town home has one) is permitted only when you have parked the maximum number of vehicles in the garage up to the design limitation of the garage. If possible, the extra vehicle must be parked in front of the garage and not in front of any other parking space. Additional parking is for guests only. In no case may any resident exceed the maximum number of vehicles permitted on property. Any space left inside private garages after vehicles have utilized the design capacity of the garage is considered and may be used as storage. The property brochure is considered the definitive guide on the design capacity of the garage. Underground parking garages and/or multi-resident garages are for parking only. NO EXCEPTIONS WILL BE MADE.

All vehicles must have current inspection, current registration and must be in working order or may be subject to tow without notice to the vehicle owner.

Any violations of these policies will result in the vehicle being removed by owner or its agents and/or ticketed by the Police Department without notice and at the vehicle owner's expense.

You will be charged a reletting fee per page 1, paragraph 11. You will also be charged back any concessions you have received within the current lease contract. In addition, you will be charged accelerated rent through either the end date of your lease contract or until the day before a new resident occupies the apartment, whichever comes first. Failure to provide and pay rent through your 60-day written notice as required in paragraph 3 of the lease contract will result in your account being turned over to collections immediately. Please see management for a breakdown of estimated costs associated with breaking the lease.
